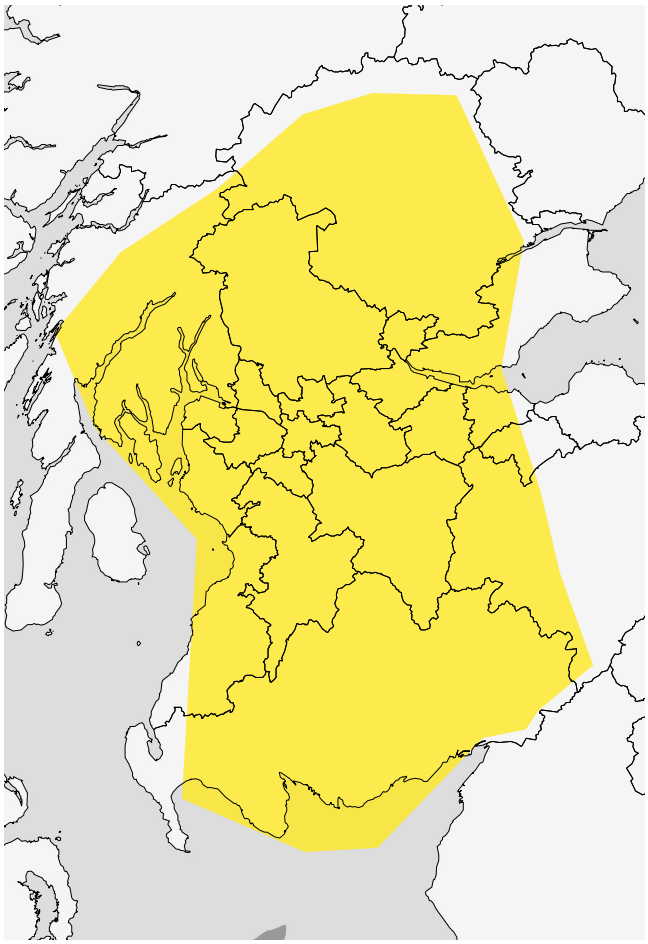
Yellow warning
Rain

Between
03:00 Fri 30 Dec 2022 and
18:00 Fri 30 Dec 2022



Heavy rain bringing some flooding and travel disruption.

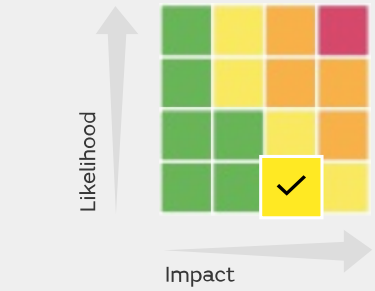
What to expect

- Spray and flooding could lead to difficult driving conditions and some road closures
- Where flooding occurs, there is a slight chance of delays or cancellations to train and bus services
- There is a small chance that some communities will become cut off by flooded roads
- There is a small chance that homes and businesses could be flooded, causing damage to some buildings

Further details

Heavy rain will develop in the early hours of Friday morning, lasting into the afternoon before clearing from the west. 15-30mm will fall widely within a 12 hour period with 60-80mm possible in a few areas, mainly across high ground in the southwest.

There is quite large uncertainty over the north-south position of the rain which will likely require further updates to the rain warning. There is also an additional risk of rain turning to snow along its northern edge. This is currently most likely over high ground across the central Highlands and may require further warnings.



Very low likelihood of medium impacts
